

PROJECT ENGINEER

The Naval Sea Systems Command (NAVSEA) needs talented and intelligent college engineering graduates with strong academic credentials in mechanical, electrical, industrial, and/or systems engineering disciplines and exemplary organizational and communications skills to become Project Engineers in its civilian workforce. You can build a strong foundation of technical and management experience as part of a world-class team responsible for the multi-billion dollar design and acquisition of current and future ships, submarines, and associated systems.

NAVSEA's 36-month paid developmental Internship provides participants ever-increasing responsibilities in systems engineering technical direction and management of ship and system design, acquisition, and modernization projects. Responsibilities encompass management and oversight of research, design, systems integration, development, testing, construction, fleet introduction, lifecycle support and ultimate disposal of leading edge defense technologies. Interns may also participate in planning and executing transfers of current and future ships, submarines, and defense technologies to foreign militaries.

Requirements

- Must be a U.S. citizen and capable of obtaining and maintaining a security clearance.
- Must be able to clearly demonstrate you will attain, by June 30, 2010, a Baccalaureate degree in Naval Architecture or any professional engineering degree from an accredited educational institution of higher learning.

How to Apply

- Navigate to the following URL: <https://ApplicationManager.gov>.
- Create an account or log in to your existing Application Manager account. You cannot apply without creating or using an existing account.
- Under "Start a new application", enter Vacancy Identification Number (VIN) _____ for the career field: Project Engineer.
- Follow the on-line application instructions and be sure to upload your resume and all school generated transcripts sufficient to validate that your GPA is 3.0 or higher. Please use the following resume template/sample for reference:
 - Resume Template: [Download](#)
 - Sample Resume: [Download](#)
- You will receive a computer-generated reply indicating that your application has been accepted by the U.S. Staffing Application System upon successfully completing the application.
- You can return to an incomplete application or to check on the status of your application by returning to the Application Manager, logging in to your account, and viewing "My Application Packages".
- Verify that your application has been successfully transmitted by viewing your uploaded documents before the closing date of the vacancy (month day 2010) to ensure they were received and are clearly legible.
